👤 PROFILE

DATA SCIENCE / MACHINE LEARNING INTERN

Data Science and Machine Learning undergraduate with hands-on experience designing, training, evaluating, and deploying ML-based applications including fraud detection systems, recommendation engines, and AI-driven assistants. Strong in Python, data preprocessing, feature engineering, model evaluation, and deploying end-to-end solutions using Streamlit, Flask, and modern web frameworks.

🧠 SKILLS

Programming

Python, JavaScript, SQL, Java

Machine Learning & Data Science

scikit-learn, XGBoost, pandas, NumPy, TF-IDF, cosine similarity, feature engineering, model evaluation (accuracy, precision, recall)

Core Concepts

Machine Learning, NLP Fundamentals, Data Structures & Algorithms, Object-Oriented Programming

📁 PROJECTS

AI Fitness Trainer

07/2025 – 08/2025

Next.js, React, Gemini API, Vapi, Convex DB, Clerk

- Built an AI-powered fitness assistant that generates personalized workout and diet plans using LLM APIs.
- Integrated real-time voice interaction and secure user authentication with cloud-based data storage.
- Deployed a responsive web application optimized for mobile and desktop use.

Fraud Detection Web App

02/2025 – 03/2025

Python, Streamlit, scikit-learn, XGBoost

- Developed an end-to-end ML pipeline to classify financial transactions as fraudulent or legitimate.
- Trained and evaluated multiple models (Logistic Regression, Random Forest, XGBoost) using precision and recall.
- Deployed the best-performing model through an interactive Streamlit dashboard.

Movie Recommendation System

01/2025 – 02/2025

Python, NLP, Streamlit / Flask

- Built a content-based recommendation system using TF-IDF and cosine similarity.
- Processed and cleaned movie metadata to improve recommendation relevance.
- Delivered top-N personalized recommendations via a web interface.

🎓 EDUCATION

Bachelor of Engineering (B.E.) – Computer Engineering

08/2023 – Present

Savitribai Phule Pune University, NMIET Pune

Pune

Relevant Coursework: Data Science, Machine Learning, Data Structures, Algorithms, DBMS, OS, CN

📜 CERTIFICATES

- AI ML Virtual Internship
- Data Analytics
- Gen AI
- Data Science
- Machine Learning
- Python
